### STATES WE DO NOT WORK IN AT ALL

CO – Colorado      WI – Wisconsin

**Please note that we run all state in the attorney model.** The difference between Red States and Green States Both of these models are traditional debt settlement but some states require that you are represented by an attorney when entering into a debt settlement program, these are Red States. An enrollment center for the network of attorney's in all states will send the contract out to the client and ensure the client has a good understanding of the program they are entering into. In addition the enrollment center rep will ensure there is benefit in this program for the client; we cannot put anyone in the program if there is not true benefit!
